PROJECT:

TYPE:

Accessories (Configure separately)

SPECIFICATIONS

| ELECTRICAL | WATTAGE | 27W LED |
|-------------------------|---------------|--|
| | LED | Integrated LED system with 'X' technology is scalable for field upgrade. Modular design with electrical quick disconnects permit field maintenance. High power, forward throw source complies with ANSI C78.377 binning requirements. Exceeds ENERGY STAR [®] lumen maintenance requirements. LM-80 certified components. LM-80 certified. Minimum 50,000 hour rated life at 70% of initial lumens (L70). BKSSL technology provides long life, significant energy reduction and exceptional thermal management. |
| | WIRING | XLPE coated 18AWG, 600V, 150°C rated and certified to UL 1659 standard. |
| | REMOTE DRIVER | For use with remote LED driver. See remote driver submittal to determine remote distance and wiring requirements prior to detailing field installation of any remote wiring. |
| PHYSICAL | MATERIALS | Copper and Brass: Constructed from copper and brass. These enduring metals are inherently corrosion resistant. Aluminum: Constructed from Copper-Free aluminum (Type 6061-T6). |
| | BODY | Hand spun from high purity, solid copper plate. High temperature, silicone 'O' Ring provides water tight seal. Machined from 6061-T6 Aluminum or 360 Brass. |
| | KNUCKLE | Machined from 6061-T6 Aluminum or 360 Brass. Lamp head adjustment lock screw. High temperature, silicone 'O' Ring provides water-tight seal and compressive resistance to maintain fixture position. |
| | САР | Hand spun from high purity, 14GA ASTM 3003-H14 Aluminum with 10GA ASTM 3003-H14 Aluminum Brackets or 16GA ASTM C101 Copper with 12GA AISI 304 Stainless Steel Brackets. Lens alignment lock screws allow for precision adjustment without the redundant opening of the fixture. |
| | LENS | Shock resistant, tempered, boro silicate glass lens is factory adhered to fixture cap and provides hermetically sealed optical compartment. |
| | STEM | Machined from heavy wall 1"OD 6061-T6 Extruded Aluminum Tube or 1/8" Wall 330 Extruded Brass Tube. |
| | INSTALLATION | Machined 1/2" NPSM adaptor for mounting to suitable enclosure. |
| | OPTICS | Interchangeable OPTIKIT [™] modules permit field changes to optical distribution. |
| F | FINISH | Copper and Brass: Natural (NAT): Copper and brass components are sand blasted to expose the porous metal surface. Over time, and with exposure to the elements, the metals will naturally 'weather' resulting in a unique patina. Also available with hand-crafted metal finishes including brown patina (BP), green patina (GP), and polish (POL). |
| | | Copper and brass components are also available in powder coat finishes. |
| | | Optional ceramic clear coat protection (copper and brass components only) seals and protects underlying metals and protects against discoloration, fading, and wear. Highly impervious to chemicals, solvents, and graffiti. For use with natural (NAT) finish. |
| | | Aluminum: StarGuard [®] , our exclusive RoHs compliant, 15 stage chromate-free process cleans and conversion coats aluminum components prior to application of Class 'A' TGIC polyester powder coating. |
| - | WARRANTY | 5 year limited warranty. |
| c⊌us LISTED RoHS∜ | LISTINGS | UL tested to IESNA LM-79. UL Listed. Certified to CAN/CSA/ANSI Standards. RoHs compliant. Suitable for indoor or outdoor use. Suitable for use in wet locations. Additionally suitable for installation within 4' of the ground. IP66 Rated. Made in USA. |

06/28/2022 SKU-1260 P5 SUB-2646-00

| PM2 INTEGR | NT - POWER PIPE) | IP66 RATED | |
|------------|------------------|------------|--|
| DATE: | PROJECT: | TYPE: | |
| | | | |

| SPECIFICAT | FIONS | |
|------------|---------------------------------|---|
| ELECTRICAL | DRIVER (27W) | For use with [1] 700mA (D27), Class A, constant current driver. 120-277VAC (nominal) primary input voltage. 50/60Hz. >0.94 Power Factor, <10.0A in-rush current, 0.25A input current, ≤5%THD (nominal at 120VAC full load). Output over-voltage, over-current, and short circuit protection with auto recovery. EMC: FCC47CFR Part 15 Class B compliant. Driver wattage must match fixture wattage. Dimming driver for use with standard incandescent dimmers. 10-100% range. |
| PHYSICAL | GROUND/MONUMENT INSTALLATION | For use at grade level with integration of Power Pipe System, which provides direct burial wireway into concrete or soil. 6" dia., molded stability flange projects into substrate to simplify installation and reinforce housing stability. [2] 1/2" PVC slip connectors for through wiring. Includes stainlesssteel mounting brackets for additional anchor to architectural surface. Anti-Siphon Valve (ASV") prevents "wicking" through conductor insulation. [3] Silicone filled wire nuts supplied for water-tight line connection. Maximum (2) #10 & (1) #18. Minimum (1) #12 & (1) #18. |
| | HOUSING | Copper free, aluminum extrusion with die cast end caps. Surface mounted with flow through back channel to prevent water and debris collection. Machined aluminum cover with countersunk holes for flush hardware installation. Tamper-resistant, captive, black oxide stainless steel mounting screws. Front access for ease of installation and inspection. [2] 1/2" NPT female conduit entries per end cap for through wiring. |
| | INSTALLATION TETHER | Stainless steel cable with integral loop allows cover to temporarily suspend from housing during installation to simplify wire connection and component attachment. |
| | PATENTED KNOCKOUTS | [4] 1/2" NPT, machined aluminum knockouts. High temperature, silicone 'O' Ring for water-tight seal. Patented design allows knockout to be reinserted without compromising seal integrity. |
| | FINISH | StarGuard [®] , our exclusive RoHs compliant, 15 stage chromate-free process cleans and conversion coats aluminum components prior to application of Class 'A' TGIC polyester powder coating. Finish to match fixture. (specified separately). |
| | WARRANTY | 5 year limited warranty. |
| | LISTINGS | NEMA 4X / IP-66 Rated Enclosure. UL Listed. Certified to CAN/CSA/ANSI Standards. RoHs compliant. Made in USA. |
